# How to select the right Business Cloud edition

**OPS**

With the OPS Business Cloud, management consultants and internal organizational performance teams – including process, quality, and organizational development – get one place to apply the analytic rigor needed to diagnose critical performance issues and manage key projects across the enterprise. For managers, Business Cloud offers visibility and awareness, so planning and prioritizing can be done with confidence.

Because it's in the cloud, we've eliminated disruptions to your day-to-day operations. We take care of everything.

And, anyone can use any edition – there are no user limits at any level. Your only decision is what features you need as your organization grows.

## Select the Business Cloud edition that meets your needs
