How to select the right Healthcare Cloud edition

The Proofpoint Healthcare Cloud standardizes key operational processes for improved performance and takes the daily administrative load off your staff. Healthcare cloud increases the satisfaction and engagement of patients and staff. For administrators, Healthcare Cloud retains critical information needed to systematically drive quality and reduce risk.

Because it's in the cloud, we've eliminated disruptions to your day-to-day operations. We take care of everything.

And, anyone can use any edition – there are no user limits at any level. Your only decision is what features you need as your organization grows.

Select the Healthcare Cloud edition that meets your needs
